

GAOURAV PATIL

Where CI/CD Meets AI: An AI Cloud Engineer Stepping into Intelligent Automation

☎ 9834892067 ✉ patilgaourav304@gmail.com 🔗 linkedin 🐙 GitHub 📁 Portfolio 📍 pune, India

PROFESSIONAL SUMMARY

RHCSA-Redhat certified System Administrator with extensive experience in **AWS Cloud, DevOps, and Linux systems**. Proficient in full-stack development and AI tools, driven by a passion for creating smart, automation-focused solutions. Aiming to leverage my technical expertise to develop AI-powered internal tools, such as intelligent support chatbots, that enhance IT.

WORK EXPERIENCE

AWS Cloud Intern | Internship

Jun 2025 - Aug 2025

F13 Technologies Pvt Ltd

Remote • Delhi

- Deployed and managed cloud infrastructure on **AWS EC2**, configuring **VPC networking** to ensure secure, scalable environments for AI/ML application workloads.
- Automated routine cloud operations using **AWS Lambda** (serverless functions) and scripting, decreasing manual intervention and accelerating iteration cycles for AI model deployment pipelines.
- Managed data storage solutions with **Amazon S3** and **RDS/DynamoDB**, structuring data pipelines for efficient ingestion and retrieval of AI-ready datasets.

Technologies / Skills Used : EC2, VPC, Subnets, Security Groups S3, EBS, EFS (Storage) RDS, DynamoDB (Database) Lambda, Shield (Security)

PROJECTS

AI DevOps Orchestrator | 🐙 Github

Jun 2026 - Present

Individual

- Developed an **AI-enabled DevOps orchestration** platform for automating Kubernetes resource management through REST APIs and a centralized execution engine.
- Implemented secure **authentication**, Kubernetes resource managers, structured logging, dependency injection, and standardized **API** responses using enterprise software design principles.
- Built a scalable **microservices** architecture designed for AI-assisted deployments, monitoring, **GitOps** integration, and **cloud-native** infrastructure automation.

Technologies / Tools Used : python, fastapi, Docker, kubernetes, Observablitiiy, terraform, JWT, Postgresql, Grafana

AnnaData | 🐙 Github

Lead Developer

- Engineered a robust **full-stack platform** using GrokAI for **Weather API** and **Location API**.
- Executed **RESTful API** orchestration with asynchronous middleware pipelines.
- Delivered real-time **agronomic intelligence**, commodity telemetry, and subsidy procurement pathways for rural stakeholders.
- Transformed complex data layers into an accessible, low-latency interface for farmers.

Technologies / Tools Used : Node.js, Express, Python, PostgreSQL, APIs, GrokAI, React.js

SKILLS

Databases :	PostgreSQL, Redis, MongoDB
Frameworks & Libraries :	Express, React, Flask
Languages :	English, Hindi, Marathi
Programming Languages :	C++, Java, Go, Python
Soft Skills :	Leadership, Problem Solving, Critical Thinking
Tools & Platforms :	Git, GitHub, Docker, Kubernetes, Postman, Jenkins, Linux, CI/CD

EDUCATION

PostGraduation | Pune

Jul 2025 - Jul 2027

Master of Computer Application (MCA)

CGPA : 7.32

- Completed coursework in **Data Structures & Algorithms, Java Web & Network Programming, Probability & Statistics, and Cloud Computing**
- Developed and deployed **Annadata**, a full-stack agrarian intelligence platform as a practical engineering project
